DHI-ICS-A110E-H1J

Overseas DH Intelligent EV Charge

Series Overview

D-Volt Compact is a sleek and compact home EV charger designed for seamless integration into residential spaces. With its minimalist aesthetic and compact form, it combines elegant design with effortless installation and intuitive operation. Built with multiple layers of electrical protection, it delivers a safe, reliable, and user-friendly charging experience for everyday use at home.

Functions

Multiple Start Methods

Charging can be easily initiated through App, RFID or Plug and Play.

Current Adjustment

The current can be adjusted from 6 A to 32 A. The EV Charger also has protection against overloads and safely uses home electricity, while providing fast charging at maximum power.

Scheduled Charging

Charging can be scheduled and energy levels customized. By selecting the most convenient charging periods, you can reduce electricity costs and ease the load on the power grid. Additionally, you can tailor the amount of energy for charging your vehicle based on the actual demands of its battery. This approach minimizes float charging and helps protect the battery.

Intelligent Operation and Maintenance

Supports error alarms, OTA update, DSO control, remote control and restart.

- 3 charging modes: Authentication-free charging (plug & play), RFID card swiping, and app control.
- Supports OCPP 1.6J.
- Working temperature: -30 °C to +50 °C (-22 °F to +122°F).
- Integrated 30 mA Type A and DC 6 mA RCD function protection.
- Supports Dynamic Load Balancing and Solar Charging.
- Offers multiple protection functions.
- 3-year warranty.

Protection Capabilities

Comes with protection against overvoltage, undervoltage, overcurrent, short circuits, lightning surges, electric surges, leakage, overtemperature, metering failure, CP disconnection, and vehicle PE disconnection. It can also detect relay sticking and LN reverse connection, and offers grounding protection, PEN protection, and data security. The EV Charger is also dustproof and waterproof so that you can feel secure and comfortable while using it.

Scene

Suitable for installation in homes to charge new energy vehicles.

Technical Specification

Electrical

Rated Power	11 kW
Input Voltage	400 VAC ± 15%
Rated Input Frequency	50/60 Hz
Output Voltage	400 VAC ± 15%
Output Current	Max 16 A
Standby Power Consumption	≤5 W
Power System Type	TN-S,TT
Input Cable Connection Method	L1/L2/L3/N/PE
Input Current	Max 16 A

Basic

Charging Mode	Mode 3 (EN/IEC 61851)
Leakage Protection	Type A + DC 6 mA
Security Protection	Overvoltage protection, undervoltage protection, overcurrent protection, short circuit protection, lightning protection, surge protection, leakage protection, grounding protection, overtemperature protection, relay stuck detection, CP disconnection protection,IP,IK,data security protection, LN reverse connection protection, flame-retardant protection, shutter protection against accidental touches,PEN (Protective Earth and Neutral) protection, measurement protection, tamper-protection, network security protection
Communication	• Wi-Fi 6 802.11b/g/n/ax (2.4 GHz) 802.11a/n/ac/ax (5 GHz) • RFID ISO/IEC 14443 A (Type A, 13.56 MHz) • RJ-45 Ethernet connection • Bluetooth Low Energy (BLE 5.0) 2402–2480 MHz (for installer configuration purposes) • OCPP 1.6J • 4G LTE Cat-1 (nano SIM) (Optional) LTE FDD: B1/B3/B5/B7/B8/B20/B28
Connection Mode	Socket (Supports Shutter)/5 m (16.40 ft) Cable, Type 2
ROHS	ROHS
Measurement Accuracy	Meter IC, ±1%
Warranty	3 years

Function

Startup Method	App/Plug & Play/RFID
Status Indicator Light	Yellow (Starting)/Green (Standby)/Flashing blue (Charging)/Flashing green (The charging cable has been connected, or after successful card authentication,or charging finished)/Flashing red (Charging fault)/Blue (Reserved)
Upgrade Method	USB upgrade and remote upgrade (OCPP 1.6J)

Structure

Material	• Unit – PC/ABS Alloy, flammability rating UL94-V0 • Heat Sink – Aluminium alloy
Installation	Wall mount and vertical pole mount
Wiring Method	Top/bottom cable entry and back cable entry, Bottom cable exit
Product Dimensions	Cable: 227.0 mm × 227.0 mm × 129.0 mm (8.94" × 8.94" × 5.08") (W × H × D) Socket: 227.0 mm × 227.0 mm × 133.5 mm (8.94" × 8.94" × 5.26") (W × H × D)
Packaging Dimensions	Cable: 412.0 mm × 362.0 mm × 313.0 mm (16.22" × 14.25" × 12.32") (W × H × D) Socket: 560.0 mm × 290.0 mm × 260.0 mm (22.05" × 11.42" × 10.24") (W × H × D)
Net Weight	Cable: 11 kW 5.0 ± 0.5 kg Socket: 11 kW 2.8 ± 0.5 kg
Gross Weight	Cable (One pack): 11 kW 7.2 ± 0.5 kg Socket (One pack of two): 11 kW 7.5 ± 0.5 kg
Cable Length	5 m (16.40 ft) (Including connector)

Environment

Operating Temperature	–30 °C to +50 °C (–22 °F to +122 °F)
Storage Temperature	–40 °C to +70 °C (–40 °F to +158 °F)
Operating Altitude	≤2,000 m (6561.68 ft)
Protection	IP55
Vandal-proof Rating	IK10

Port

Power Input Port	L1/L2/L3/N/PE
Power Output Port	L1/L2/L3/N/PE
Network Port	1 × RJ-45 (100m Ethernet port)
Charging Port	Type 2 (Socket, IEC 62196 Type2 EU)
Input Wiring Specification	AC Input Cable 5 × 6-10 mm2 (9 AWG-7 AWG) 3-Phase RS485 Cable 2 × 0.2-1.5 mm2
Others	RS485 (CT)

Intelligence

Load Balancing	Supports DLB
Current Adjustment	6-16 A
Reservation	Yes
Auto-Resume Charging	Yes
PV Green Power	PV Green Power (Supports three modes：Green、Echo、Fast)

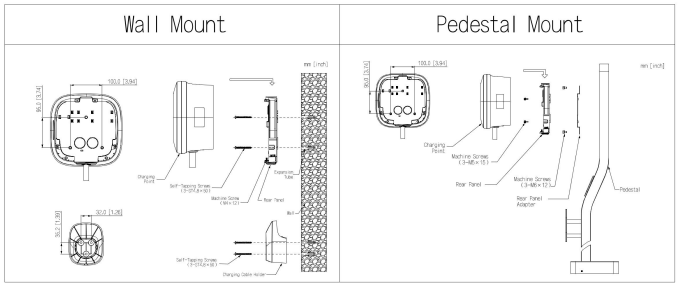

Certification

Certifications & Regulations	Certifications & Compliances CE/CB (TUV) EN IEC 61851-1, EN IEC 61851-21-2, IEC62955, EN 300328, EISI EN300330, EN301489-1/-17/-3/-52, EN62311, EN50364, ETSI EN 301511, ETSI EN301908-1/-2/-13, 2011/65/EU, 2015/863/EU, EN 18031-1, EN 18031-2

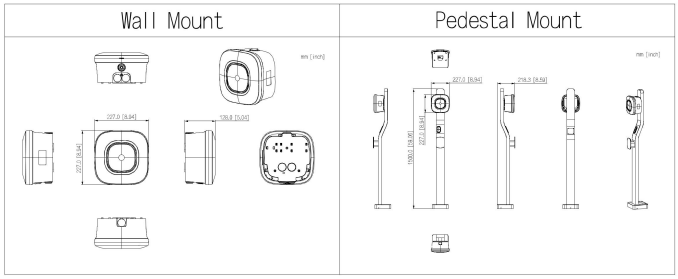

Ordering Information
